

INM120 - CSS TODO

Assignment 3

OVERVIEW:

So, you have an HTML page that hasn't been styled yet, and you also have a screenshot of how the final product should look like. No worries, I'm here to help you out! Just follow the hints in the style.css file and make the necessary changes to your page so that it matches the design in the screenshot.

REQUIREMENTS:

- Create directory on local machine
- In cmd/terminal --> npm init
- Edit your package.json file in Visual Studio code
- In cmd/terminal --> npm install ...
- Download zip attached to assignment requirements
- Unzip files, copy/move index.html, style.css, and img directory to directory you just created
- OPEN SCREENSHOT IN BROWSER FOR COMPARISON *WHILE* YOU'RE WORKING!!!
- All edits will be in style.css

SUBMISSION NOTE:

- Place all files in a folder called firstname_lastname
- Zip your folder and submit it to Blackboard.

EVALUATION BREAKDOWN:

There are 30 todos. Each has a value of 0.5 point.

This project is worth 15% of your final grade.

Let's make your page shine together!
