INM120 - QUOTES

Assignment 2

OVERVIEW:

Let's create some amazing artwork by transforming two of your favourite
literary quotes using basic HTML tags and CSS. With the power of fonts,
colours, sizes, and positions, you can turn these quotes into a visual
masterpiece. Let's get started and have some fun with creativity!

REQUIREMENTS:

- Choose two literary quotes you love.
- Use basic HTML tags and the template setup.
- Include a CSS reset from a CDN
- Use an external stylesheet with a relative path.
- Use appropriate HTML5 semantic tags for better structure.
- Use at least two Google fonts to add unique typography.
- Incorporate at least three different colours, including one hex and one
  named colour.
- Experiment with three different font sizes for visual hierarchy.
- Add variety with three different border styles (excluding "none").
- Utilize border, margin, and padding for spacing.
- Demonstrate understanding of CSS selectors by using at least one of each:
  - element
  -class
  - ID
  - compound selector

SUBMISSION NOTE:

- Place all files in a folder called firstname_lastname
- Zip your folder and submit it to Blackboard.
